

AddOn-1

Add a Search Functionality at Client Side based on Title of Activity and Deadlines

AddOn-2

Create two draggable Items, one indicates Personal other indicates Official, At a time you can drag one of these items on to one of the activity on the table, the type of activity should be updated to personal or official accordingly.

AddOn-3

Prepare two charts, one is to show pie-chart of overall activities, and other is to show the bar-graph of day wise activities. (Date on X-axis and Activity Counter on Y-Axis)

AddOn-4

To the deadline along with date, store the time also. You have to automatically update the status to pending, if it crossed the deadline's date and time for every 5 minutes

AddOn-5

Track the performance of all the activities,

If the completion ratio is 80% and above show a gold badge on top right corner

Else If the completion ratio is 60% and above show a silver badge on top right corner

Else If the completion ratio is 50% and above show a bronze badge on top right corner

Otherwise, No badge
